

# The New Versa Trail XTR Tire

## Carlisle introduces the new Versa Trail® XTR all-terrain tire

The Carlstar Group is set to unveil the new Carlisle branded Versa Trail XTR ATV/UTV tire engineered for higher horsepower vehicles. The Versa Trail XTR is proudly made in the USA.

Expanding on the popular Carlisle branded Versa Trail ATR product family, the new Versa Trail XTR tire features more extreme performance and handling on multiple surfaces and comes in larger 30 and 32 inch sizes. The 8-ply rated radial construction and reinforced belts provide unequalled puncture resistance, while integrated lug channels offer increased traction.

“We are extremely excited to introduce the Versa Trail XTR tire to our popular Carlisle branded ATV/UTV portfolio,” stated Rhett Turpin, Director of Powersports at The Carlstar Group. “We have combined all the engineering and performance features of the Versa Trail ATR into a larger, more robust tire with added traction making it a perfect upgrade for Super Sport Side-by-Sides.”

“The Carlisle brand has a very unique value proposition with its depth and breadth of product offerings” stated Brian Preheim, Market Segment Manager at The Carlstar Group. “As a leader in the specialty tire market, our product solutions span multiple markets and offer a one-stop-shop for any outdoorsman.”

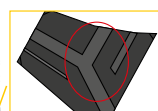

Product Code	Size (In.)	Ply Rating	Mounted Diameter (mm.)	Mounted Width (mm.)	Max Load Capacity at @80 km/h	Max PSI	Tire Weight (kg)	Tread Depth (mm)
<b>VERSA TRAIL XTR</b>								
6P0871	30X10R14 NHS	8	774.5	249	1570	32	17.8	24
6P0872	32x10R14 NHS	8	828	261.6	1820	32	19.3	24

### PERFORMANCE

- Super-deep rim guard designed to protect the rim lip on styled aftermarket wheels
- “Tough Tread” rubber compound protects against cuts, chips and tread wear
- 3/4-inch lug depth for maximum handling and traction control

### TERRAIN

- Ample void and multiple biting edges on the tread blocks offer excellent traction in a variety of environments
- Non-directional tread pattern delivers a smooth ride on any terrain

### CONSTRUCTION

- Reinforced belts provide increased traction and unequalled puncture resistance
- Increased sidewall strength offers superior stability and puncture protection
- Made in the USA

### VERSA TRAIL XTR NEW FEATURES

- 8 ply rated, radial construction
- Center lug channels improve traction by adding a biting edge to the lugs and also allow the tread to flex around rocks on rough trails
- Available in 30” and 32” sizes
- Compliant with DOT Test Standards
